IMPORTANT NOTICE REGARDING PUBLICATION OF PATENT APPLICATION

Attorney Docket No.

H422.12-0008

TO: PERSON MAKING DECISIONS RELATED TO FILING OF APPLICATION

Under 37 C.F.R. § 1.211, U.S. nonprovisional patent applications filed on or after November 29, 2000 will be published after 18 months from the earliest filing date from which priority is claimed, unless the application is filed with a proper nonpublication request. A nonpublication request must include a certification that the invention disclosed in the application has not been and will not be the subject of an application filed in another country, or internationally under a multilateral agreement (such as the Patent Cooperation Treaty (PCT)), that requires publication 18 months after filing. If you plan to file a foreign or PCT patent application on this invention, the application must be allowed to publish in the United States.

As mentioned above, if you do not plan to file a foreign or PCT application on this invention, you may file a nonpublication request at the same time a patent application is filed. Should you later decide that you would like the application to be published, or that you would like to file a foreign or PCT application on this invention, a request to rescind the nonpublication request may be filed to allow the application to be published.

You should also consider potential advantages of allowing the patent application to be published. Damages may be available in certain instances for infringing acts performed by others after publication of the application but before grant of a patent. Therefore, if you have reason to believe that infringement of the patent is likely to occur before the patent is granted, it may be advantageous to allow the application to be published, or even to request early publication of the application (which must be accompanied by a \$300 publication fee).

If the application is published, a \$300 publication fee will be assessed when the patent is allowed, along with the customary issue fee.

PLEASE CHECK THE APPROPRIATE BOX BELOW TO INDICATE YOUR INSTRUCTIONS AS TO PUBLICATION OF THIS APPLICATION:

☒ THE APPLICATION SHOULD BE ALLOWED TO PUBLISH IN THE UNITED STATES.

This selection is appropriate if:

You wish for the application to be published; or

You plan to file a foreign or PCT application on this invention.

☐ THE APPLICATION SHOULD NOT BE ALLOWED TO PUBLISH IN THE UNITED STATES. THEREFORE, PLEASE FILE A NONPUBLICATION REQUEST WITH THE APPLICATION.

This selection is **only** appropriate if you do **not** plan to file a foreign or PCT application on this invention.
